Contents

1. Introduction

The development, implementation and monitoring of a Service Delivery and Budget Implementation Plan (SDBIP) is required by the Municipal Finance Management Act (MFMA). In terms of Circular 13 of National Treasury, “the SDBIP gives effect to the Integrated Development Plan (IDP) and budget of the municipality and will be possible if the IDP and budget are fully aligned with each other, as required by the MFMA.”

As the budget gives effect to the strategic priorities of the municipality it is important to supplement the budget and the IDP with a management and implementation plan. The SDBIP serves as the commitment by the Municipality, which includes the administration, council and community, whereby the intended objectives and projected achievements are expressed in order to ensure that desired Projections over the long term are achieved and these are implemented by the administration over the next twelve months.

The SDBIP provides the basis for measuring performance in service delivery against quarterly targets and implementing the budget based on monthly projections. Circular 13 further suggests that “the SDBIP provides the vital link between the mayor, council (executive) and the administration, and facilitates the process for holding management accountable for its performance. The SDBIP is a management, implementation and monitoring tool that will assist the mayor, councillors, municipal manager, senior managers and community.”

2. Legislation

The Municipal Finance Management Act (MFMA) defines a Service Delivery and Budget Implementation Plan (SDBIP) as: a detailed plan approved by the mayor of a municipality in terms of section 53 (1) (c) (ii) for implementing the municipality’s delivery of municipal services and its annual budget, and which must indicate-

- (a) Projections for each month of-
 - (i) Revenue to be collected, by source; and
 - (ii) Operational and capital expenditure, by vote;
- (b) Service delivery targets and performance indicators for each quarter

Section 53 of the MFMA stipulates that the Mayor should approve the adjusted SDBIP within 28 days after the approval of the adjusted budget. The Mayor must also ensure that the revenue and expenditure projections for each month and the service delivery targets and performance indicators as set out in the adjusted SDBIP are made public within 14 days after their approval.

The following National Treasury prescriptions, in terms of MFMA Circular 13, are applicable to the Ba-Phalaborwa Local Municipality:

1. Monthly projections of revenue to be collected by source
2. Monthly projections of expenditure (operating and capital) and revenue for each vote¹ *
3. Quarterly projections of service delivery targets and performance indicators for each vote
4. Ward information for expenditure and service delivery
5. Detailed capital works plan broken down by ward over three years

3. Methodology and Content

The development of the SDBIP was influenced by the Priorities, Strategic Objectives, Programme Objectives and Strategies contained in the IDP ensuring progress towards the achievement thereof. The SDBIP of the Ba-Phalaborwa Local Municipality (BLM) is aligned to the Key Performance Areas (KPA) as prescribed by the Performance Management Guide for Municipalities of 2001, with the addition of Spatial Rationale as another KPA to be focused upon.

The methodology followed by BLM in the development of the SDBIP is in line with the Logic Model methodology proposed by National Treasury as contained in the Framework for Managing Programme Performance Information.

ACCOUNTING OFFICER'S ASSESSMENT OF PERFORMANCE

1. BACKGROUND OF THE REPORT

Section 72 of the Local Government: Municipal Finance Management Act, 56 of 2003, requires that the accounting officer of a municipality must by the end of Mid-year assess the performance of the municipality and submit a report on each assessment to the mayor of the municipality; the National Treasury; and the relevant provincial treasury.

In terms of Section 72 (2) of the Act, this report is accompanied by a statement compiled in terms of the provisions of Section 71(1).

2. MUNICIPAL SECOND QUARTER PERFORMANCE AS PER THE ASSESSMENT

The municipality used the top layer SDBIP as approved for implementation during the 2020/21 financial year. The SDBIP is used as a performance monitoring tool for the implementation of the IDP and Budget. The performance target reflected in the SDBIP is as per the IDP objectives. The Administration component is responsible for implementation of the SDBIP and the Political component is responsible for providing oversight. This is done through regular reporting to Council.
