REF. NO. : PERS FILES

DATE : 23 JUNE 2020

SUBJECT : COVID -19 TESTING (NEW EMPLOYEES)

Kindly be informed that the newly appointed general workers (50) employees were referred to Dr SKH Mabunda as an Occupational Practitioner to conduct Entry Physical Medical Examination as per the Occupational Health & Safety Act, 85 of 1993 of Hazardous Biological Agents Regulations of Section 8 (1) (2) (a) as from the 09th – 12th June 2020.

On the 16th June 2020, there were rumors that there were patients from the Doctor's Surgery who tested positive for COVID-19. After confirmation with the Doctor, we took the initiative to have all the 50 newly appointed employees screened by the department of Health.

Amongst all the employees there was one (1) employee who had COVID 19 symptoms and was referred for testing through the Department of Health.

This serves to inform and confirm that the outcome of the results for the employee tested for Covid-19 were released today and they are **NEGATIVE**.

AS A RESULT WE WOULD LIKE TO ASSURE ALL EMPLOYEES THAT THERE IS NO COVID-19 CASE IN OUR INSTITUTIONS AS ALLEGED BY FAKE MEDIA.

Hope you find the above to be in order.
