3. INTRODUCTION

Ba-Phalaborwa Municipality Indigent policy is a tool designed to ensure that destitute households and child headed family that are classified as indigent have the access to basic services as defined in the Constitution of the Republic of South Africa, Act 108 of 1996.

The Municipal Council must give priority to the basic needs of the community, promote the social and economic development of the community and ensure that all residents and communities in the municipality have access to at least the minimum level of basic municipal services in terms of Section 152 (1) (b) and 153 (b) of the constitution.

In terms of Section 74 of the Local Government Systems Act, of the year 2000, The Municipal Council (hereinafter referred to as the Council) must adopt and implement a tariff policy. In terms of Section 74(i) of the Act in adopting a tariff policy, the Council should at least take into consideration the extent of subsidisation of tariffs for poor households. Arising from the above, the council needs to approve an indigent support policy to provide procedures and guidelines for the subsidisation of basic services and tariffs charged to its indigent household.

All indications are that; the equitable share will be used to subsidize the Indigent.

The indigent is the category of people, those earning less than the set threshold, unemployed, disabled, child headed family and pensioners who are unable to make any monetary contribution towards their monthly account.

In line with the objective of creating a vibrant and growing Municipality, the indigent policy is also aligned to the principles of Batho-Pele. Service delivery is one of Government's eight priorities as set out in the White Paper on the Transformation of the Public Service. To this effect, government has launched an initiative in South Africa under the banner of Batho-Pele – meaning 'People First' in Sesotho – aimed at improving the delivery of public serves. Batho-Pele further aims to ensure that attitudes, systems and procedures are capable of delivering enhanced public serves. Batho-Pele is also about ensuring that the resources available are used to the best possible extent, eliminating wasteful and expensive procedures and reducing unnecessary expenditure on inefficient processes and systems.
